HYBRID SOLAR PANEL

The second-generation hybrid solar panel (PVT) manufactured by Abora Solar is the ultimate solution for producing domestic hot water and electricity simultaneously. Thanks to the innovative aHTech® technology developed by Abora, this panel offers exceptional performance, maximising the absorption of solar radiation.

The copper absorber, with its lattice-like tube network, allows efficient circulation of the heat transfer medium, transferring heat in an optimal way. On the other hand, the 72-cell photovoltaic laminate generates electricity in parallel with the production of thermal energy.

The transparent insulating cover and the metal case with rock wool insulation ensure that heat losses are minimised, which results in a higher energy efficiency of the panel. In addition, the possibility of interconnecting up to 10 PVTs in parallel, by means of quick and airtight connections, facilitates installation and adaptation to different needs.

Invest in the future of renewable energy with Abora Solar's hybrid solar panel, the most advanced and efficient solution for generating hot water and electricity simultaneously in your building.

ADVANTAGES

Space optimisation

Easy mounting

Tightness and stability

Fast connection

Improved performance

Double production

PRODUCT FEATURES

WARRANTIES AND COMPATIBILITY

- 10-year guarantee.
- Compatible with auxiliary systems: heat pumps, biomass boilers and gas boilers

We manufacture all our panels at our factory in Zaragoza.

CERTIFICATIONS

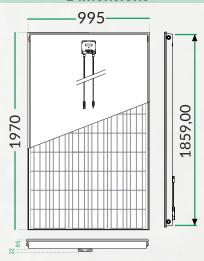

- Conform to product standards :
- DIN EN 12975-1:2011-01; DIN EN ISO 9806:2018-04
- SolarKeymark Schema Rules (2021-07)
- DIN EN IEC 61730-1,-2:2018-10; EN IEC 61732:2018+AC:2018; IEC 61730-1,-2:2016

TECHNICAL DATA

Dimensions

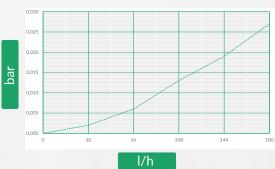

Electric specifications

Cell type	mono-crystalline
Rated power (W)	350W
Maximum power voltage (Vmpp)	39,18V
Maximum power current (Impp)	8,98A
Open circuit voltage (Voc)	48,82V
Short circuit current (Isc)	9,73A
Module efficiency (%)	17,8
Power tolerance (W)	+/- 4%
Maximum system voltage	DC 1000V(IEC)
Backsheet	Black
Temperature coefficient of Pmpp	-0,36%/°C
Temperature coefficient of Voc	-0,28%/°C
Temperature coefficient of Isc	+0,06%/°C
Maximum reverse current	15A
NOCT Temperature	45+/-2 °C

Standard test conditions STC: AM 1.5. irradiation 1000 W / m^2 Cell temperature $25~C^\circ$

Head loss

Pressure drop: $T^a max:20,13 \, ^oC/ \, T^a min: 19,39 \, ^oC$

Polígono Malpica. Calle C, Parcela 102-B Nave. 50016 Zaragoza (España) info@abora-solar.com//+34 876 24 70 96 www.abora-solar.com

General specifications

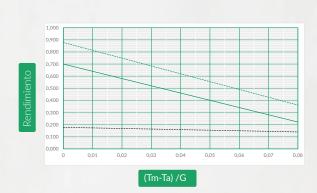

Length x width x thickness	1.970 x 995x (85+22) mm
Total area	1,96m²
Opening area	1,88 m²
Number of cells	72
Weight	50 kg
Front glass	3,2 mm. tempered
Framework	Aluminium
Connection box protection	IP65
Number of diodes	3 diodes
Dimensions of the cell	156 x 156 mm
Connection type PV / length cables	Solarlok PV4/ 1m

Thermal specifications

Optical performance	0,7
Coefficient of thermal losses, a1	5,98W/m ² .K ²
Coefficient of thermal losses ,a2	0,00W/m².K²
Internal liquid capacitante	1,78L
Stagnation temperature	126°C
Number of hydraulic connection	4 Conexions
Measure hydraulic connectios	Quick connection
Maximum permissible pressure	10bar
Nominal flow	60L/h

Standard test conditions STC: AM 1.5. irradiation 1000 W / m^2 Cell temperature 25 \mbox{C}°

Yield curve

 Total hybrid performance
